Broker Bulletin - Guidelines for Small Business Renewal Quotes

During this open enrollment period, MVP is dedicated to ensuring timely and accurate rate quotes while providing you with the best customer experience possible. With that in mind, we would like to take this opportunity to remind you about our current renewal quote guidelines.

MVP can **only** provide small group renewal quotes based on the **actual group census at the time of the request**. We are not able to provide additional quotes based on "possible" census scenarios.

We appreciate your cooperation when placing your renewal quote requests and look forward to serving you and your customers in 2012.

If you have any questions please contact your marketing sales representative.
