

## 2011 Claim Resolution Matrix

The matrix below contains all CPT®-4 codes that MVP authorizes for imaging. If an exam is billed under any one of the given codes for that grouping and a valid authorization number has been issued within the date of service validity period, the charge for any of the codes should be allowed.

If a family of CPT codes is not listed in this matrix, an exact match is required between the authorized CPT code and the billed CPT code. If the exact match does not occur, the charge should be adjudicated accordingly.

**Please note:** Services rendered in an Emergency Room or hospital inpatient setting are not subjected to the MVP Prior Authorization program.
